EXPERIENCE 📈 4.5 YEARS

HaulPLAN 🚚 Clients: FedEx, ABF, SAIA, YRCF

Optym (Software Engineer)

📅 Nov 2015 – Ongoing   📍 Bengaluru, India

- Technology: C#, .Net, MS SQL, Windows. SDLC: Agile.
- Developed application Middle Layer from scratch including REST APIs, caching strategy, in-memory and asynchronous processing.
- Significant contribution in establishing the Agile process, development best practices and recruitments.
- Great learning experience as project being developed from scratch and the company of Operation Research Specialists.
- HaulPLAN is revolutionizing how less than truckload shipping (LTL) carriers create plans and optimize network operations. The system can be used by linehaul planners, network planners, and central dispatchers to create better linehaul schedules and shipment routes.

BASEL-3 Reports 🏛 Client: American Express

Infosys (Software Engineer)

📅 Jun 2014 – Oct 2015   📍 Chandigarh, India

- Technology: C#, .Net, MS SQL, Windows, Linux, Perl
- Enhanced ETL module and Report Generation module.
- I was responsible for end to end enhancement of two financial modules. Size of the project and very diverse flow of execution made it challenging.
- This is a Data Warehousing project in which report generation is done after complex ETL process. Data from flat files is being extracted, transformed and loaded to fact tables, then from aggregate fact tables to reports.

Amex Project Bucket 🏛 Client: American Express

Infosys (Software Engineer)

📅 Mar 2013 – May 2014   📍 Chandigarh, India

- Technology: C#, .Net, HTML, CSS, JS
- Worked on multiple projects for enhancements and maintenance in an agile environment in Banking Domain.
- Quick Fix Tickets and need to understand requirements in a short time made it challenging.
- Projects Bucket: Modified Lockbox Management (MLB), Split funding (SF), Speed of Pay Project (SOP), Three Amex applications i.e. Project uplift, NIT 2.0, ACH Gateway, BOP

Software Engineer Trainee 📝 Training

Infosys

📅 Aug 2012 – Feb 2013   📍 Mysuru, India

- Six months exclusive training in Java, DBMS, Personality Development and Soft Skills

SOFTWARE SKILLS </>

C# | C++ | SQL | HTML, CSS, JS

.Net | LINQ | Ninject | AOP | MVC
Reflections | Dapper | Caching
Parallel Programming | Rest APIs

Visual Studio, Emacs, SSMS, LINQPad
Linux, Windows | SVN, Git
JIRA, Confluence, Crucible | Jmeter

Design Patterns | Data Structures
OOAD | Algorithms | Recursions
DBMS | UML | Complexity Analysis
Collections | Agile

EDUCATION 🎓

M.S. in Computer Science

BITS Pilani - WILP

📅 July 2016 – Ongoing

B.Tech. in Information Technology

MAIT, GGSIPU, New Delhi

📅 July 2008 – July 2012

LANGUAGES 🈯

English   ●●●●○
Hindi   ●●●●○

HOBBIES ⚽

Hiking, Meditation, Yoga, Adventure sports, Running, Cycling, Traveling, Swimming

STRENGTHS 💼

Honest, hard-working and self-motivated
Enthusiastic, flexible perspective
Good analytical, communication skills
